In an infectious disease, the incubation period is the time between infection and the appearance of symptoms. The latency period is the time between infection and the ability of the disease to spread to another person, which may precede, follow, or be simultaneous with the appearance of symptoms.

Reportable and Notifiable Diseases - Province of British ...

The Reportable and Notifiable Disease Regulation (2015) is one of many new regulations under the Animal Health Act, which was passed in 2014. The regulation requires that a person who has reasonable grounds to suspect that a

reportable or notifiable disease has occurred must, within 24 hours, make a report to the office of the Chief Veterinarian.

UK NEA

Ecosystem services are the benefits provided by ecosystems that contribute to making human life both possible and worth living. Examples of ecosystem services include products such as food and water, regulation of floods, soil erosion and disease outbreaks, and non-material benefits such as recreational and spiritual benefits in natural areas.
